

**Field Manual of Wildlife Zoonoses**  
**Milton Friend and Christopher Brand, Editors.**  
**Gail Moede, Technical Editor**

**Part I: Perspectives, Concepts and General Discussion**

Introduction: Why This Manual?  
Disease Emergence/Reemergence  
The Wildlife Factor  
Zoonoses and You  
Can I Eat This?  
Zoonoses as Bioweapons  
Zoonotic Literature: How to Find it and How to Keep Current

**Part II: Wildlife Zoonoses**

**A. VIRAL DISEASES**

Overview  
Rabies  
Bat Rabies  
Arboviral Overview  
West Nile Virus  
Hantavirus and other Rodent-borne hemorrhagic fevers  
Influenza  
Other Viral Diseases

**B. BACTERIAL AND MYCOTIC DISEASES**

Overview  
Anthrax  
Brucellosis  
Leptospirosis  
Tularemia  
Plague  
Lyme Disease  
Salmonellosis  
Tuberculosis  
Histoplasmosis  
Erysipelothrix  
Bartonella  
Other Bacterial and Mycotic Diseases

**C. CHLAMYDIAL AND RICKETTSIAL DISEASES**

Overview  
Chlamydiosis  
Rocky Mountain Spotted Fever and other spotted fevers  
Ehrlichiosis and related diseases  
Louse- and Flea-borne typhus and related diseases  
Q Fever  
Other Chlamydial and Rickettsial Diseases

**D. PARASITIC DISEASES**

Overview  
Trichinosis  
Echinococcosis  
Giardiasis  
Baylisascaris and other Larval Migrans  
Eustrongylidiosis

Swimmer's Itch  
Chagas Disease and other trypanosomes  
Cryptosporidiosis  
Toxoplasmosis  
Other Parasitic Diseases

### **E. PRION DISEASES**

Chronic Wasting Disease and other Prion Diseases

### **F. DISEASES OF AMPHIBIANS AND REPTILES**

Zoonotic Diseases of Amphibians  
Zoonotic Diseases of Reptiles

### **G. DISEASES OF FISH**

Zoonotic Fish Diseases
